# TWO TOPS - Gata

① Tossal del Maro is a delightful little hill with excellent views, this is mountaineering in miniature at its best! For the <sup>anti</sup> clockwise circuit, including Font Mata, allow about 2½ hrs to cover 5km with 200m ascent.

② Add about an hour, including time to admire the extensive view from the top and to return to the col for Serrillas.

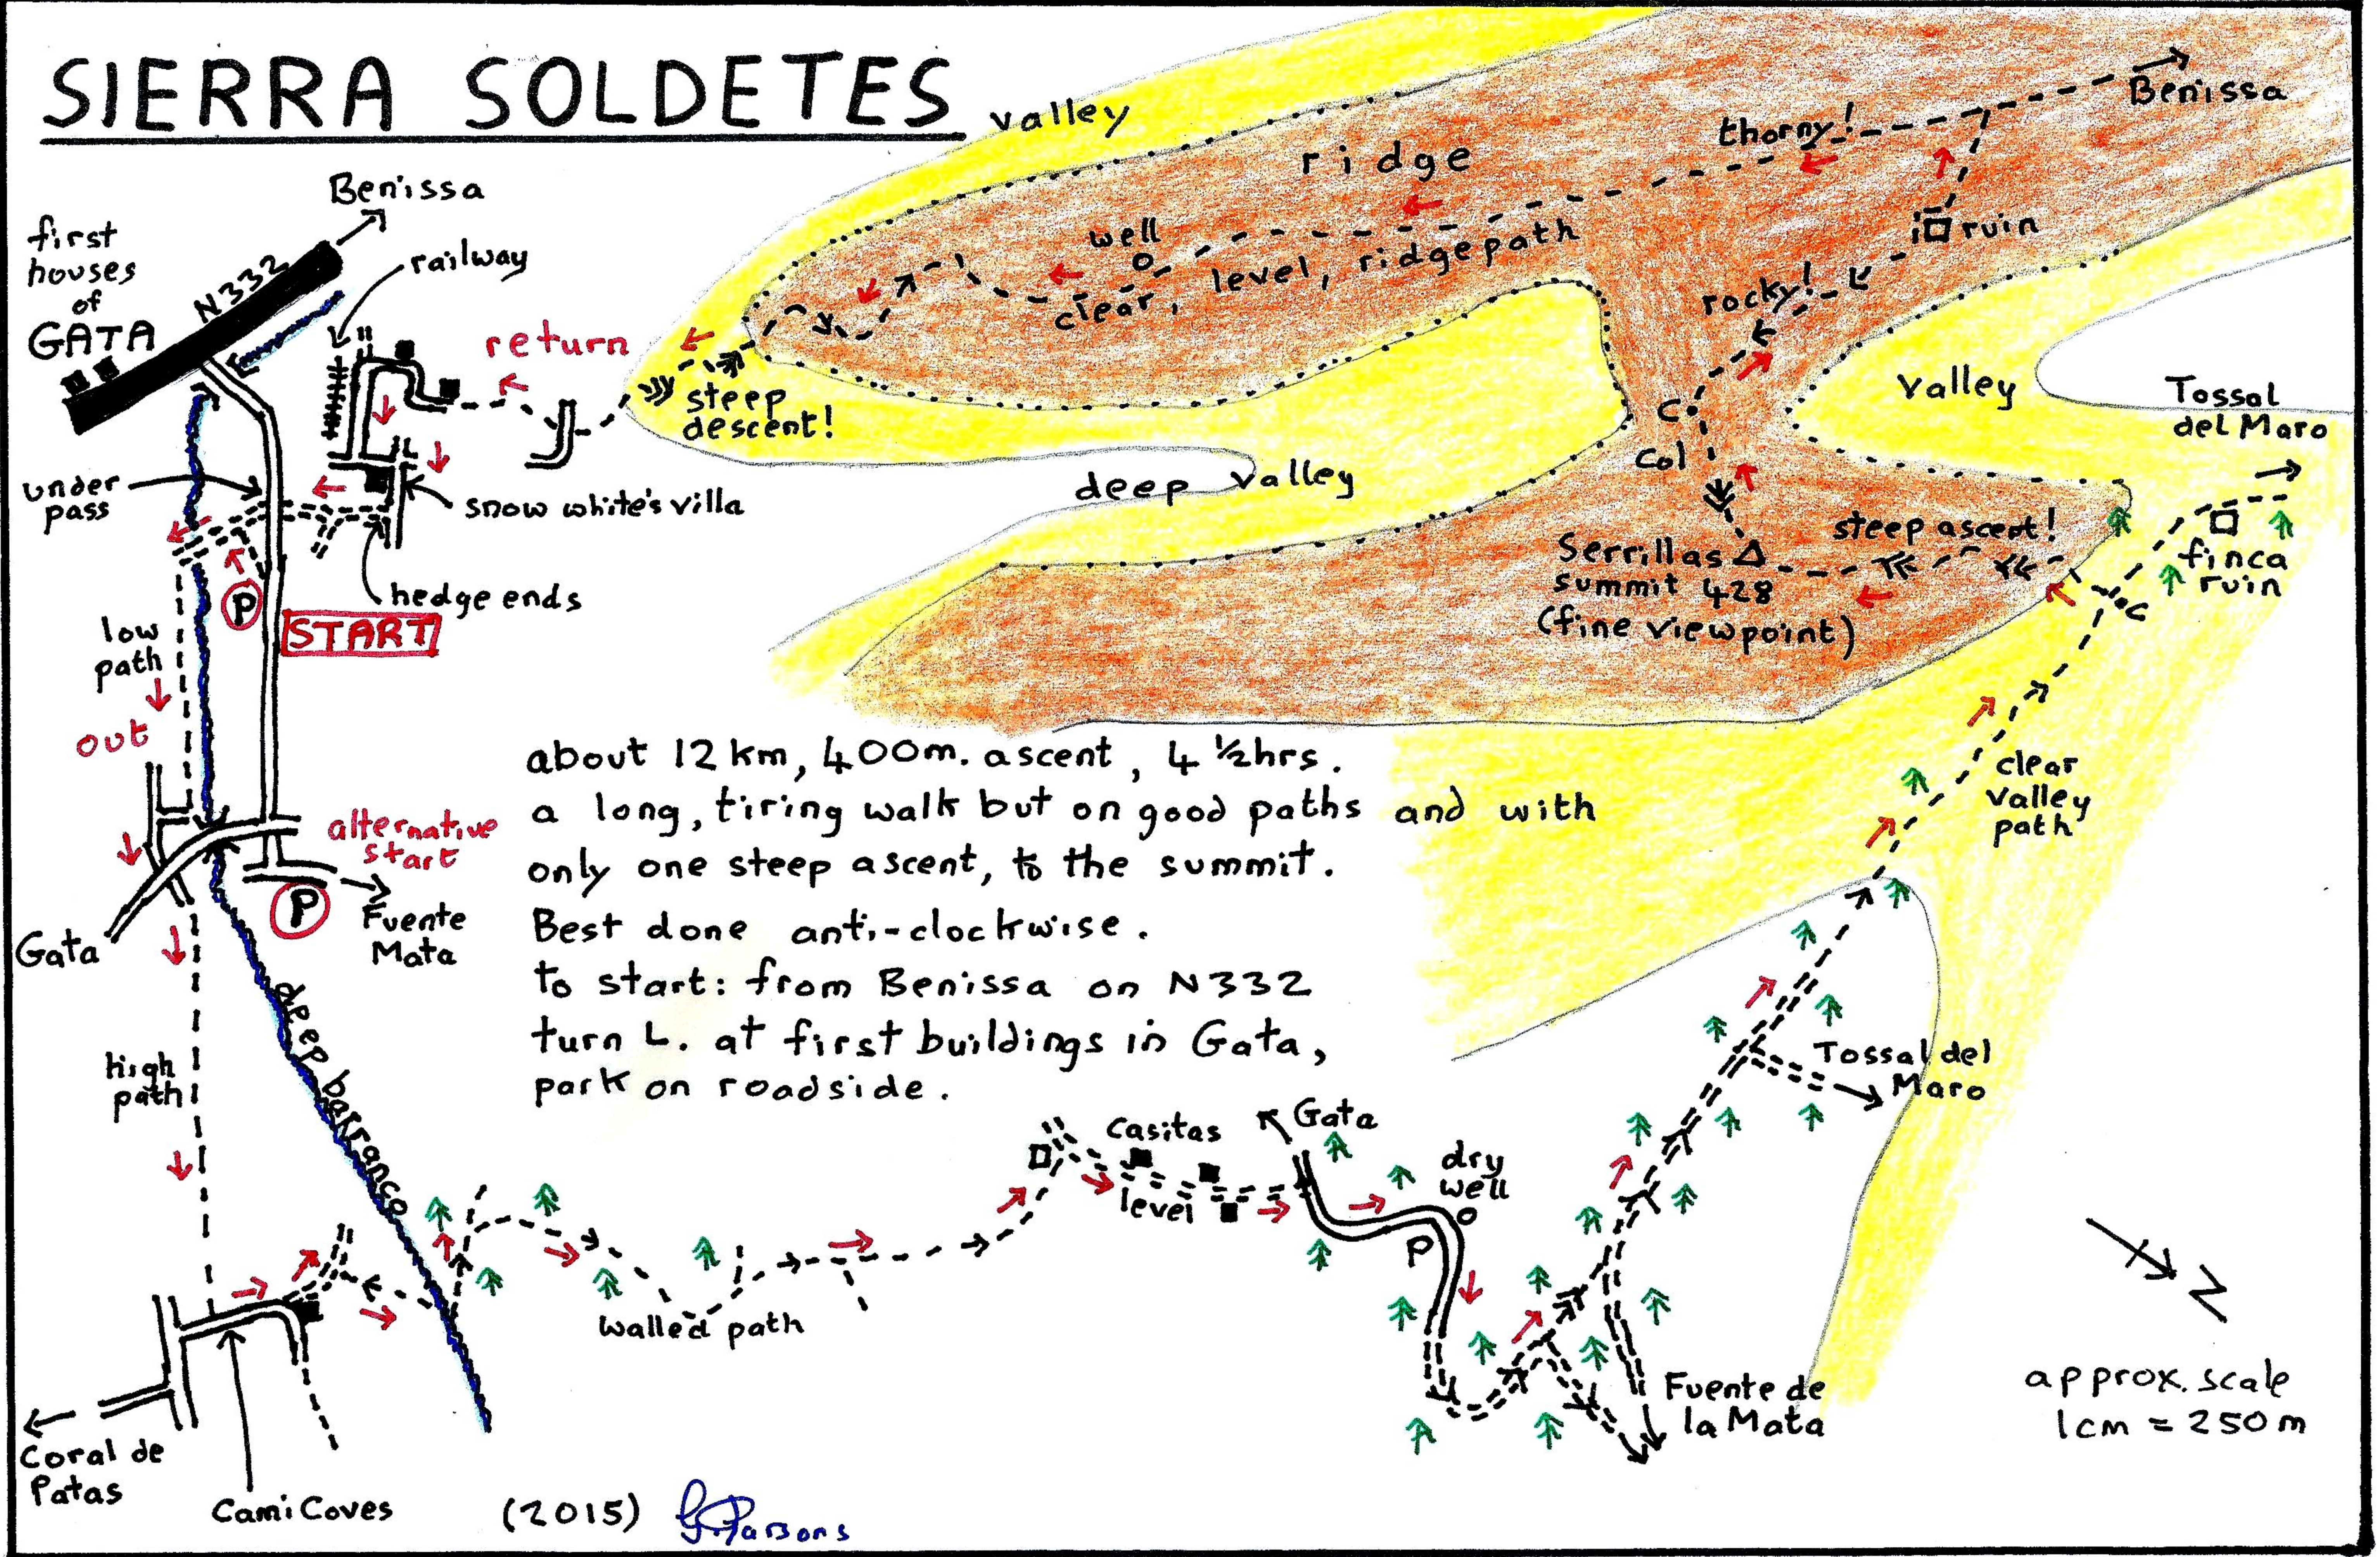

The casa and font Mata are interesting and not far. They make good picnic places.

This parking place, about 4km on a narrow surfaced road from Gata goes virtually to the foot of the hills and is by far the easiest starting point.
