# FONTILLES

easy/moderate circuit. approx. 8km, 150m asc, 2½ hrs.

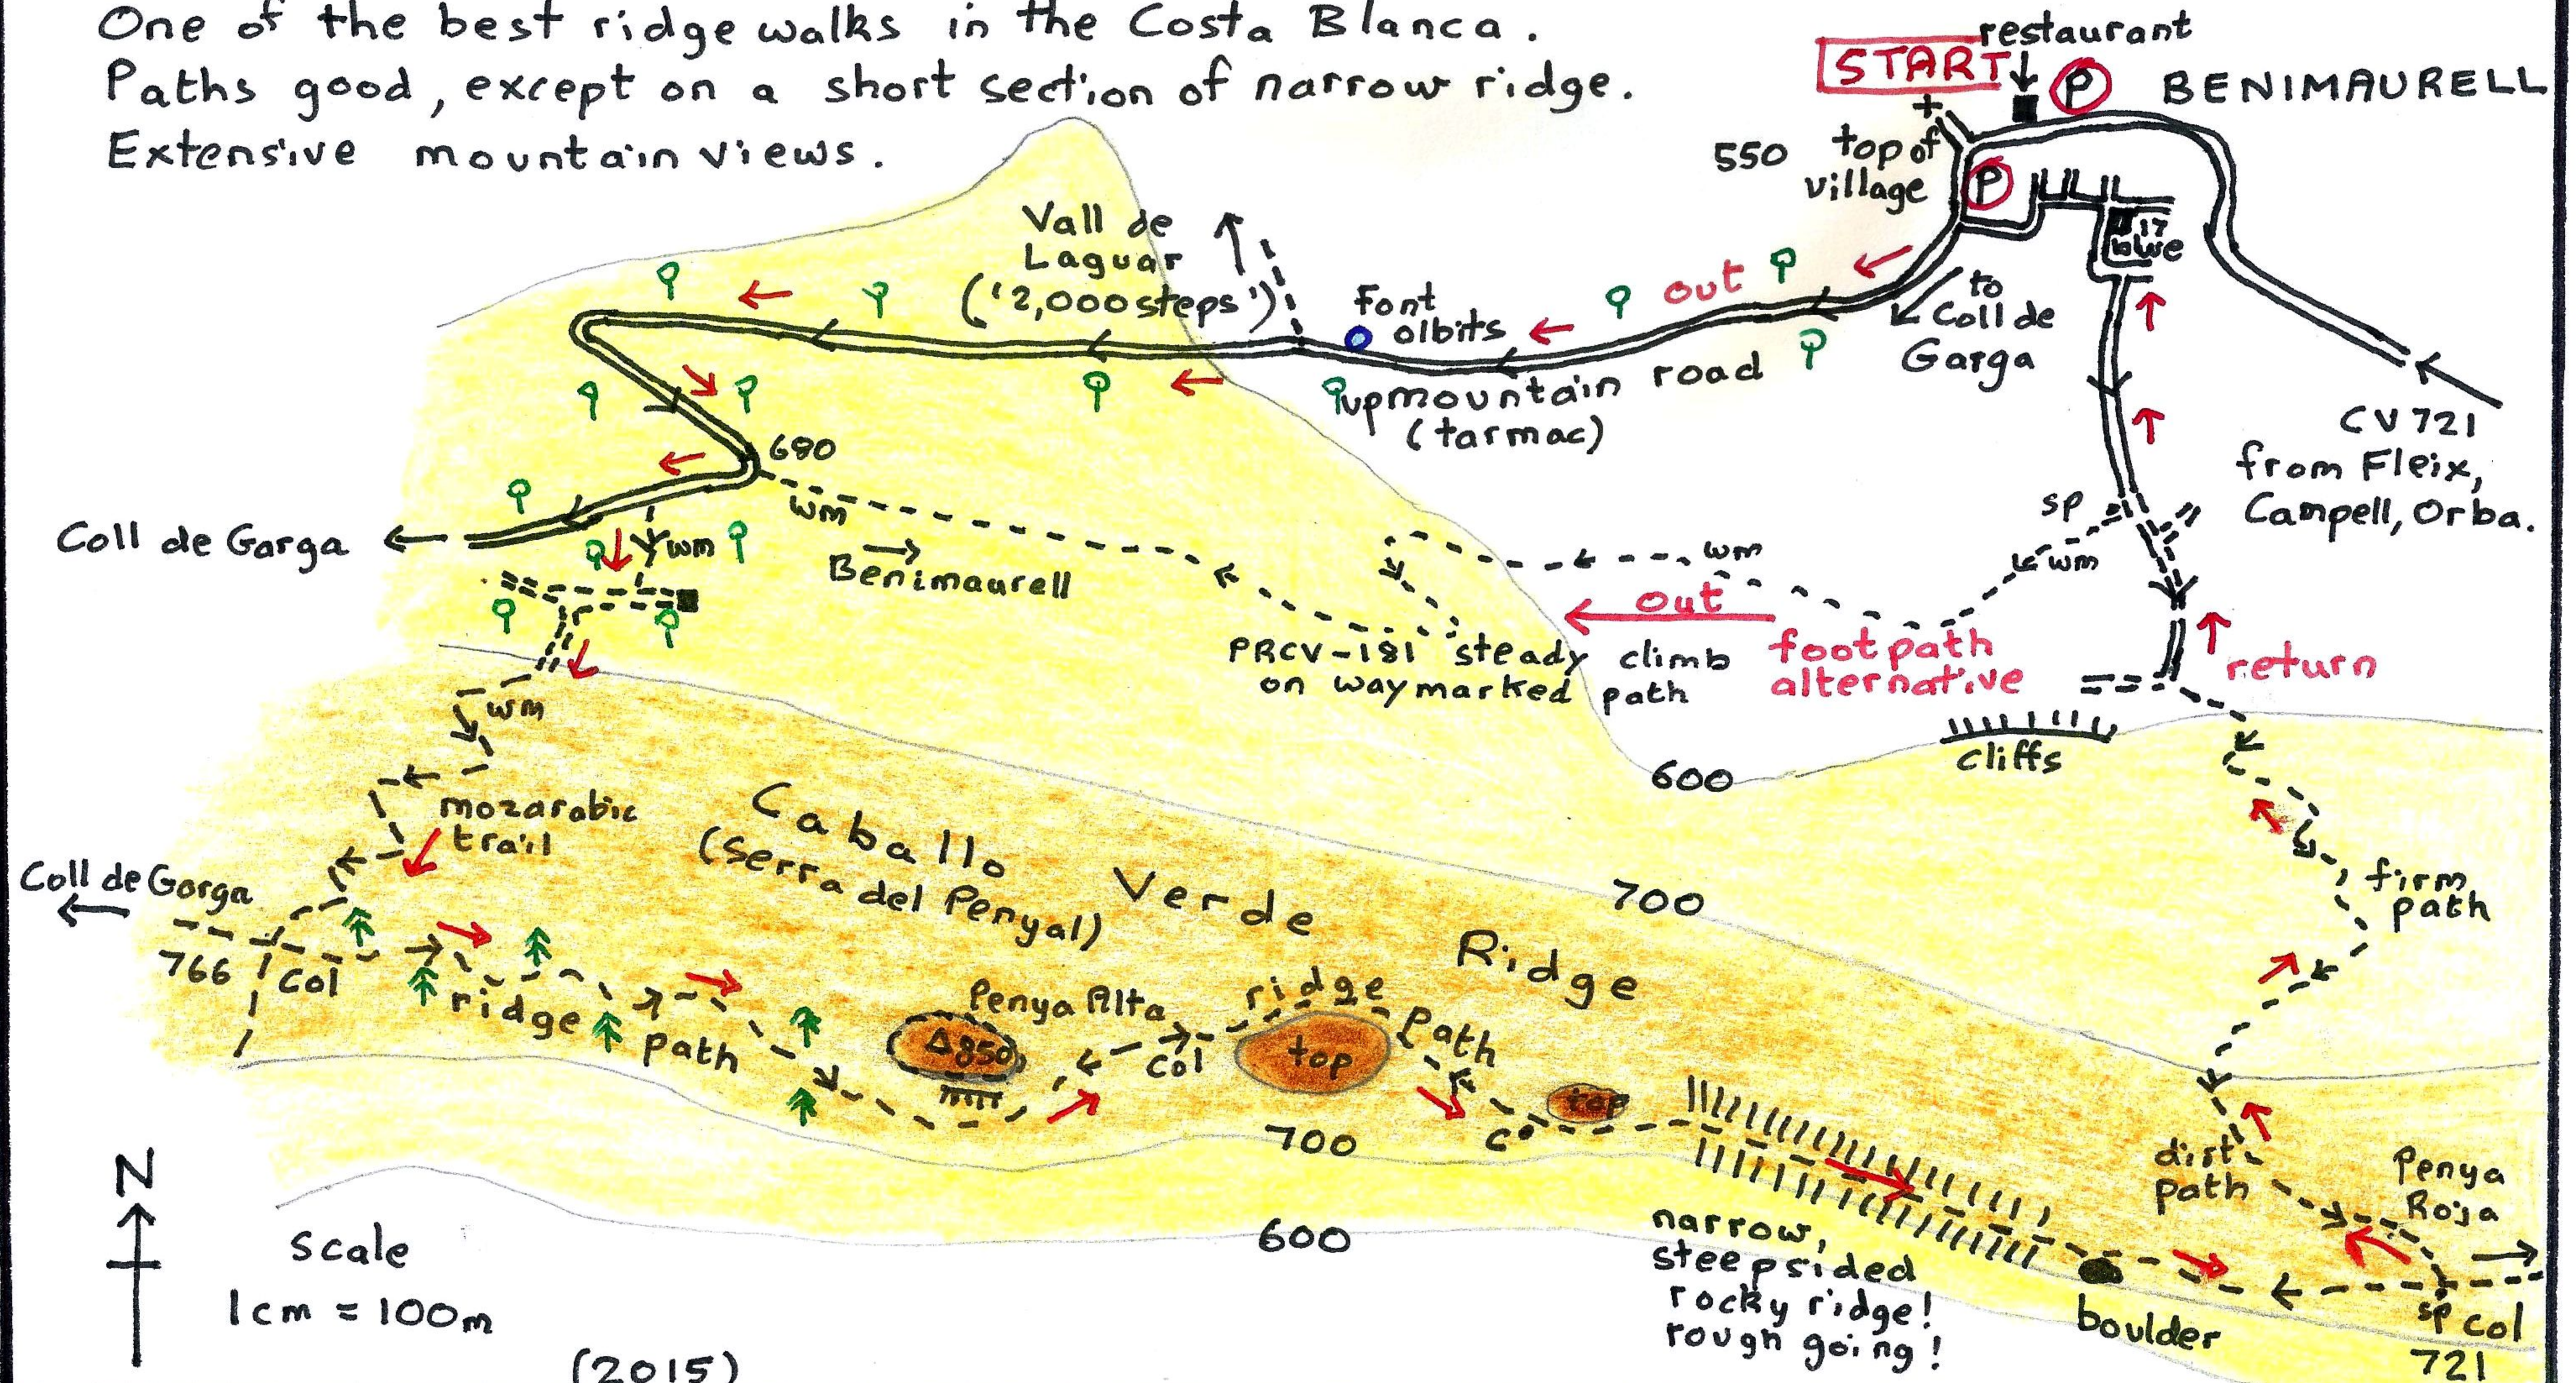

A woodland walk on good paths to an interesting village with history.  
(visit to a former leper colony!)

Fontilles is a former leper colony, founded in 1909 by Father Ferris and Sr. Ballester. The surrounding wall was built in the 1920's due to concerns by local villages. Leprosy was at last cured in 1982 by multidrug therapy; today convalescents and geriatrics are cared for instead. The village has many interesting buildings, old statues, gardens, a café, seats and views in a tranquil valley.

# CABALLO VERDE (WEST).

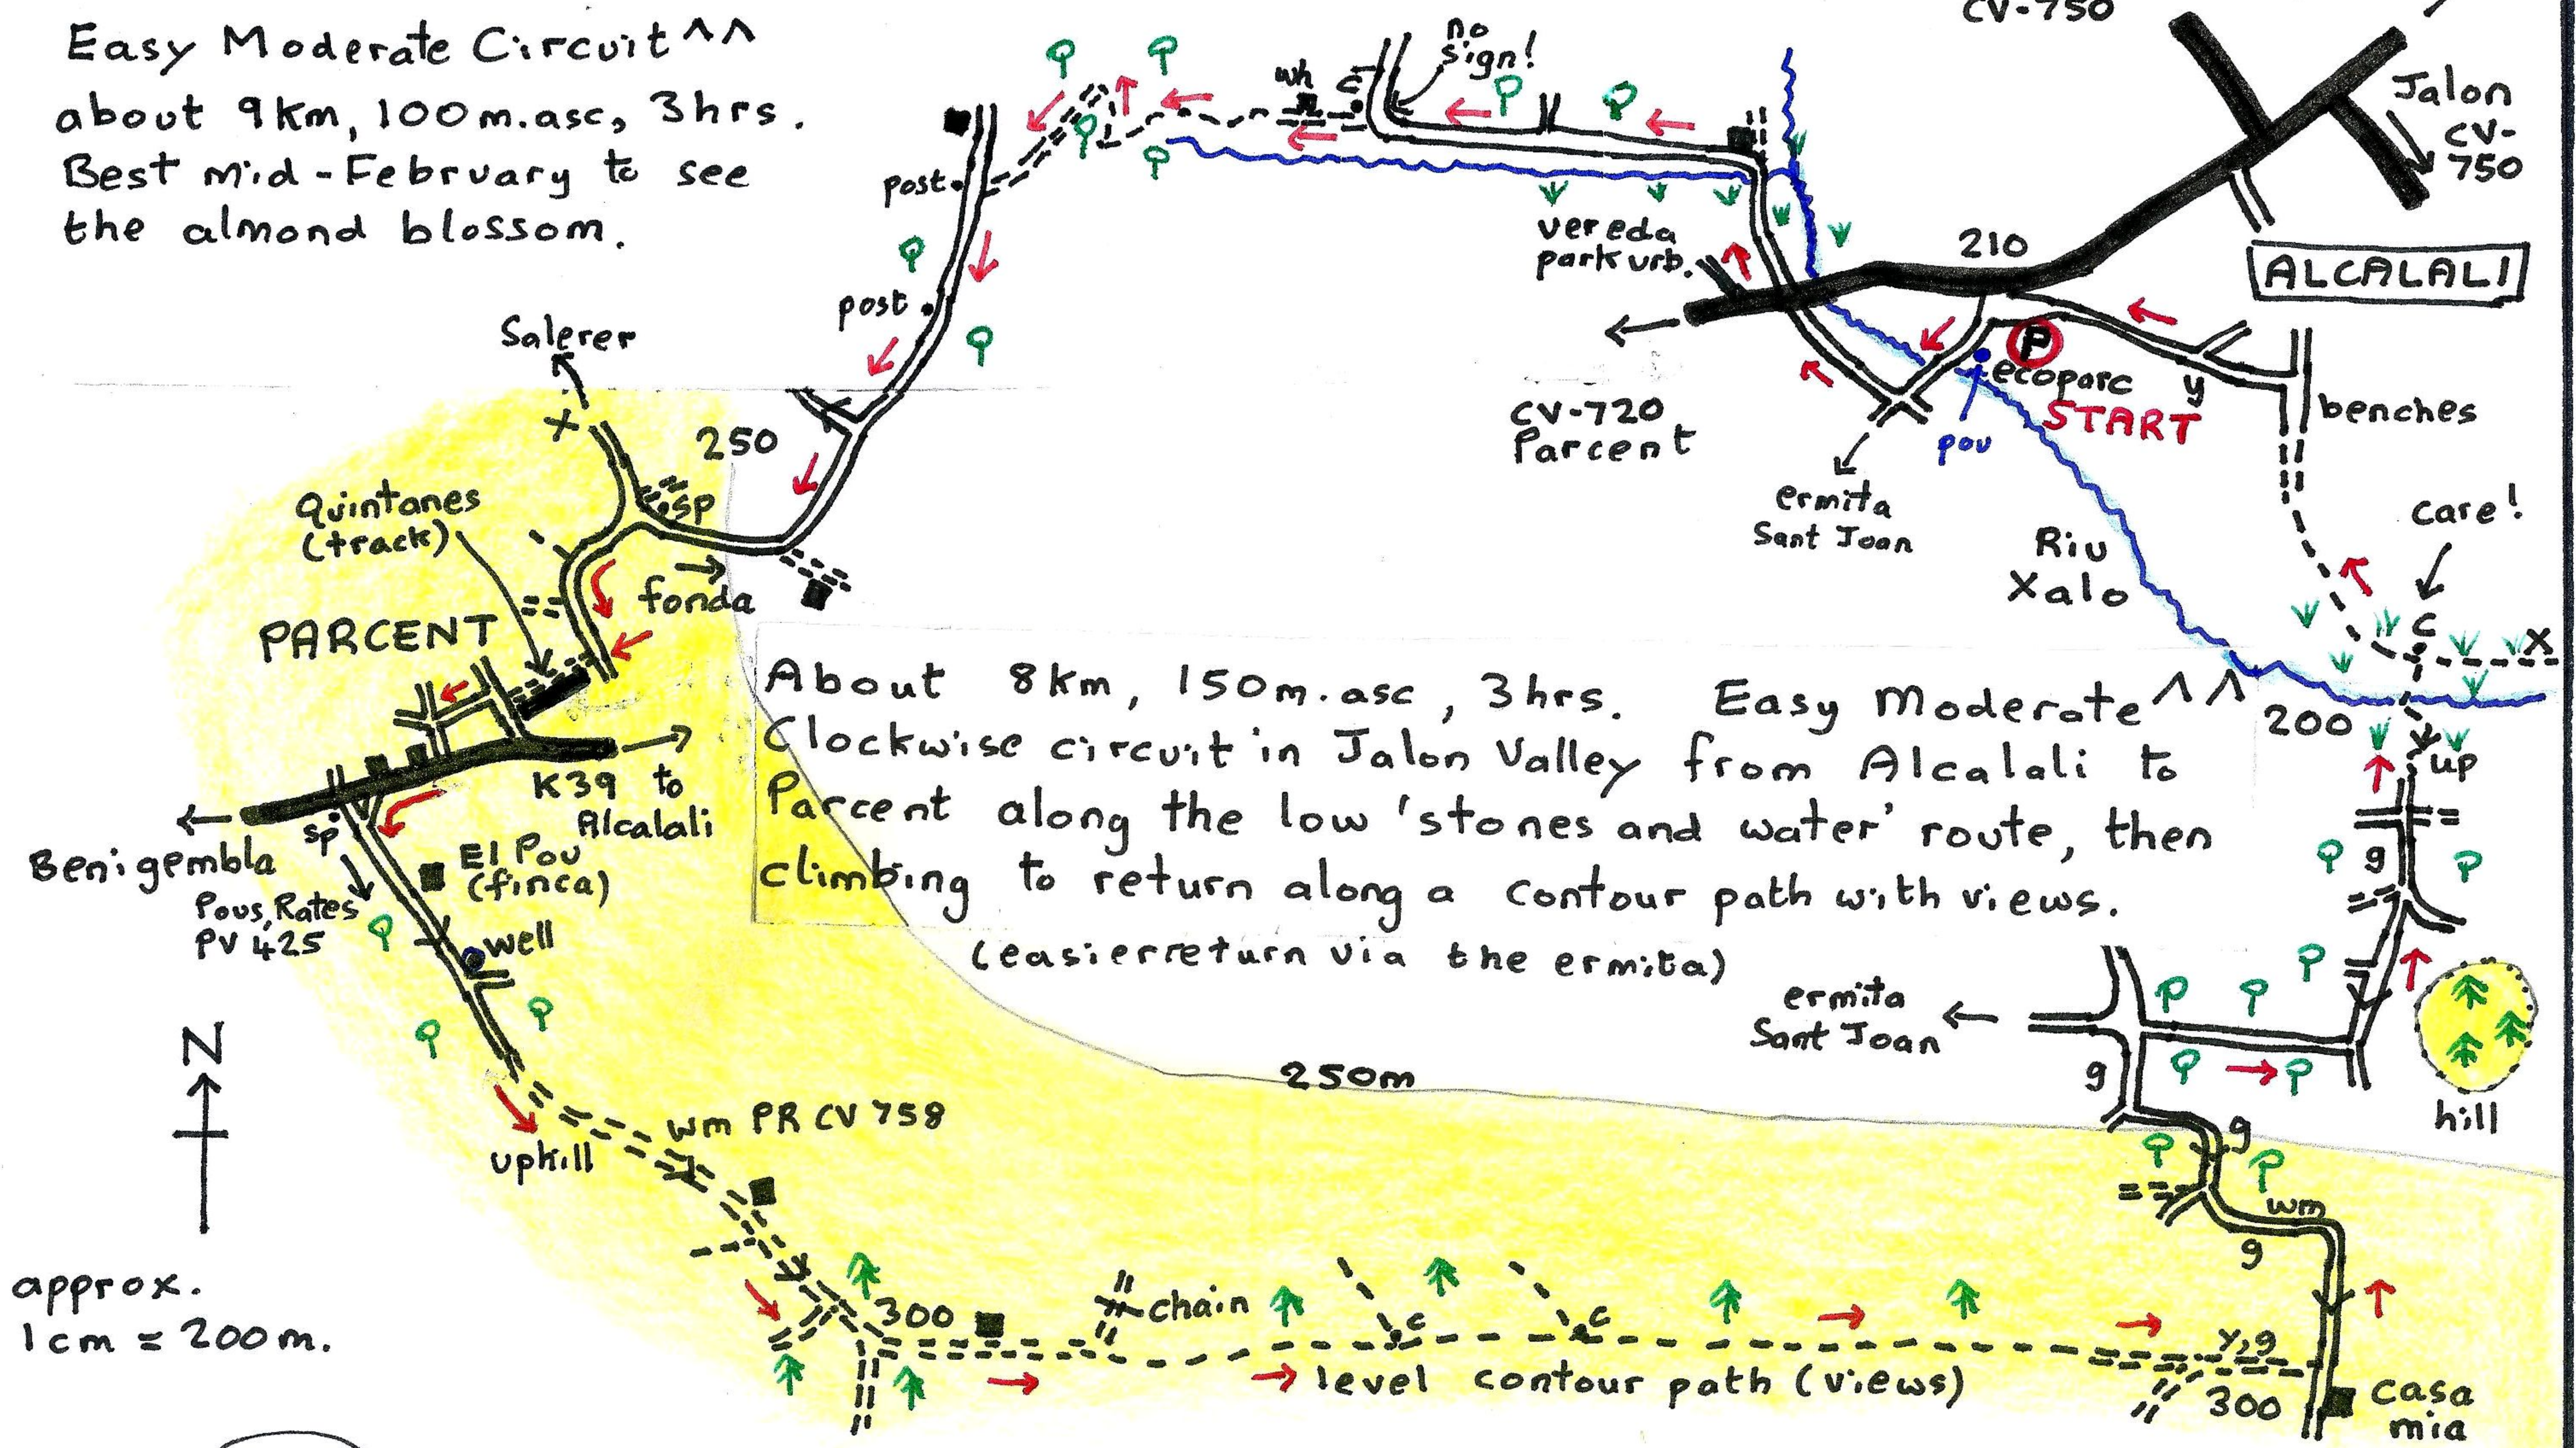

approx. 7km, 300m asc, 3hrs. Moderate Circuit.  
One of the best ridge walks in the Costa Blanca.
