

TWO THOUSAND STEPS Benimaurell

about 10km, 430m asc, 4hrs.
hard moderate circuit. Varied route
on paths, tracks and mozarabic trails
crossing a deep canyon.

Scale approx 1cm = 100m

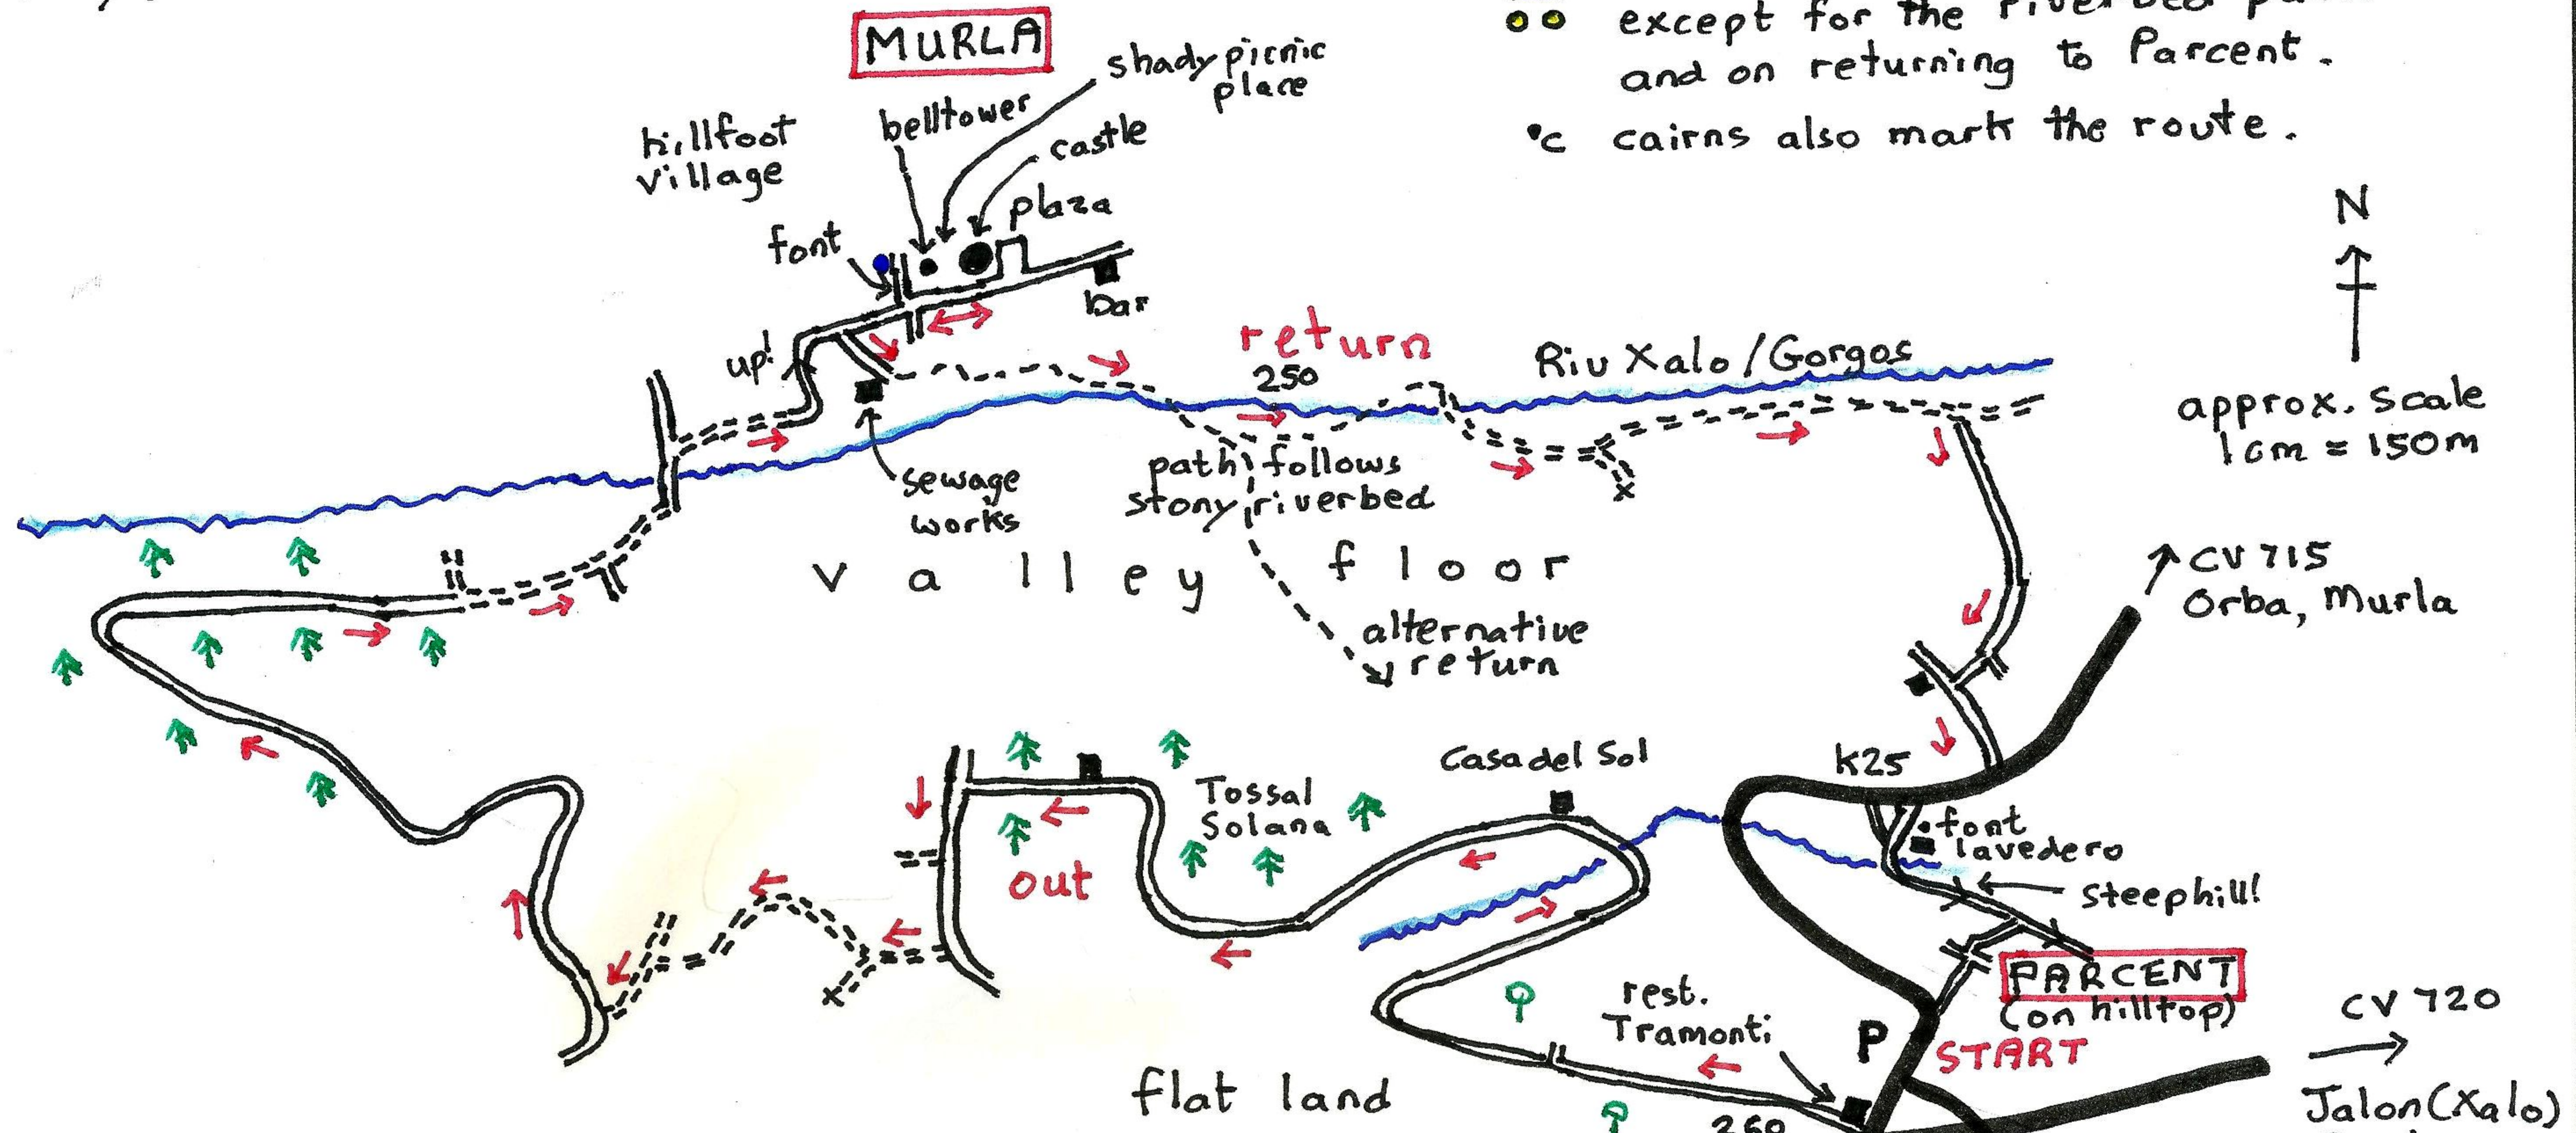

The well preserved mozarabic trails were built, with considerable engineering skill, centuries ago by Christians who accepted Moorish rule.

CV-721 from Fleix, El Campell; Orba on CV-718.
Benimaurell - (village at an enlarged scale)

PARCENT TO MURLA

approx. 8 km, 200m. ascent, 3hrs.
easy/moderate clockwise circuit.

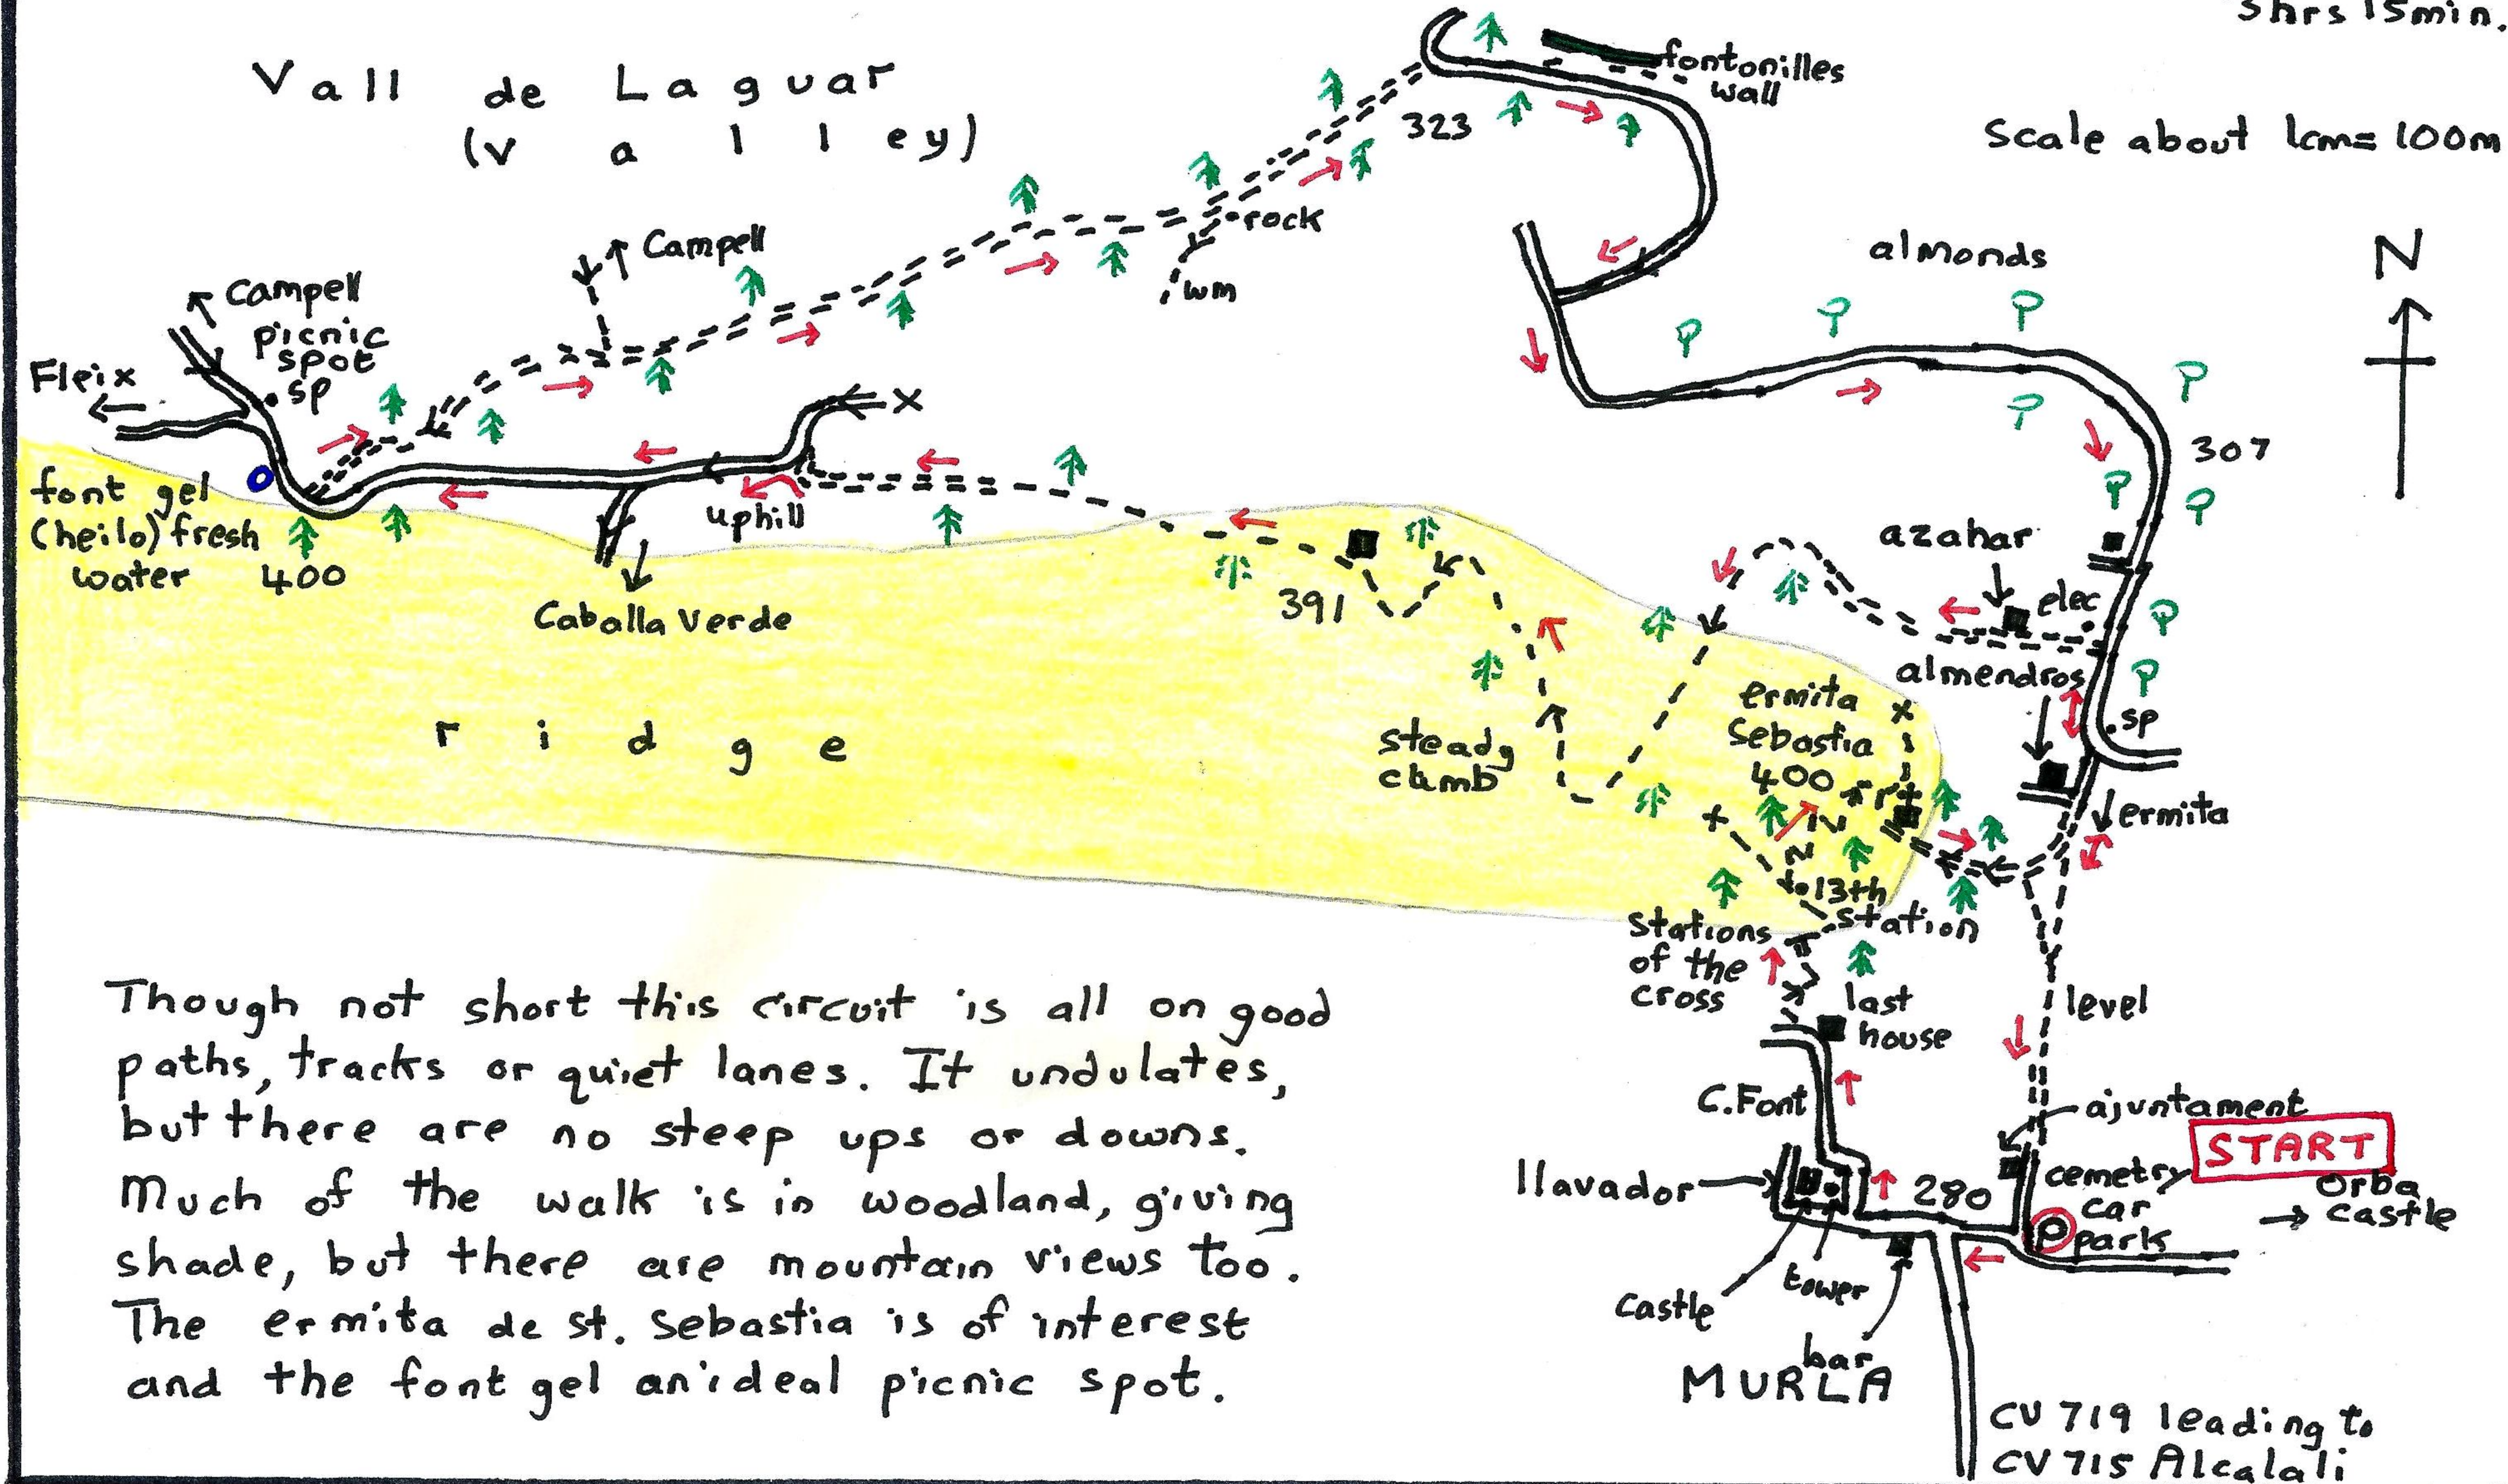

- ▲ Follow this cycle route sign, except for the riverbed path and on returning to Parcent.
- cairns also mark the route.

This circuit, based on a bike route, provides easy walking on camis and tracks, except for the stony bed of the Riu Xalo. It is undulating, without steep ups or downs. Murla provides an interesting halfway stop with a bar and ruins.

Parsons, (2015)

MURLA MEANDER - Moderate . Approx. 9km, 300m asc. 3hrs 15min.

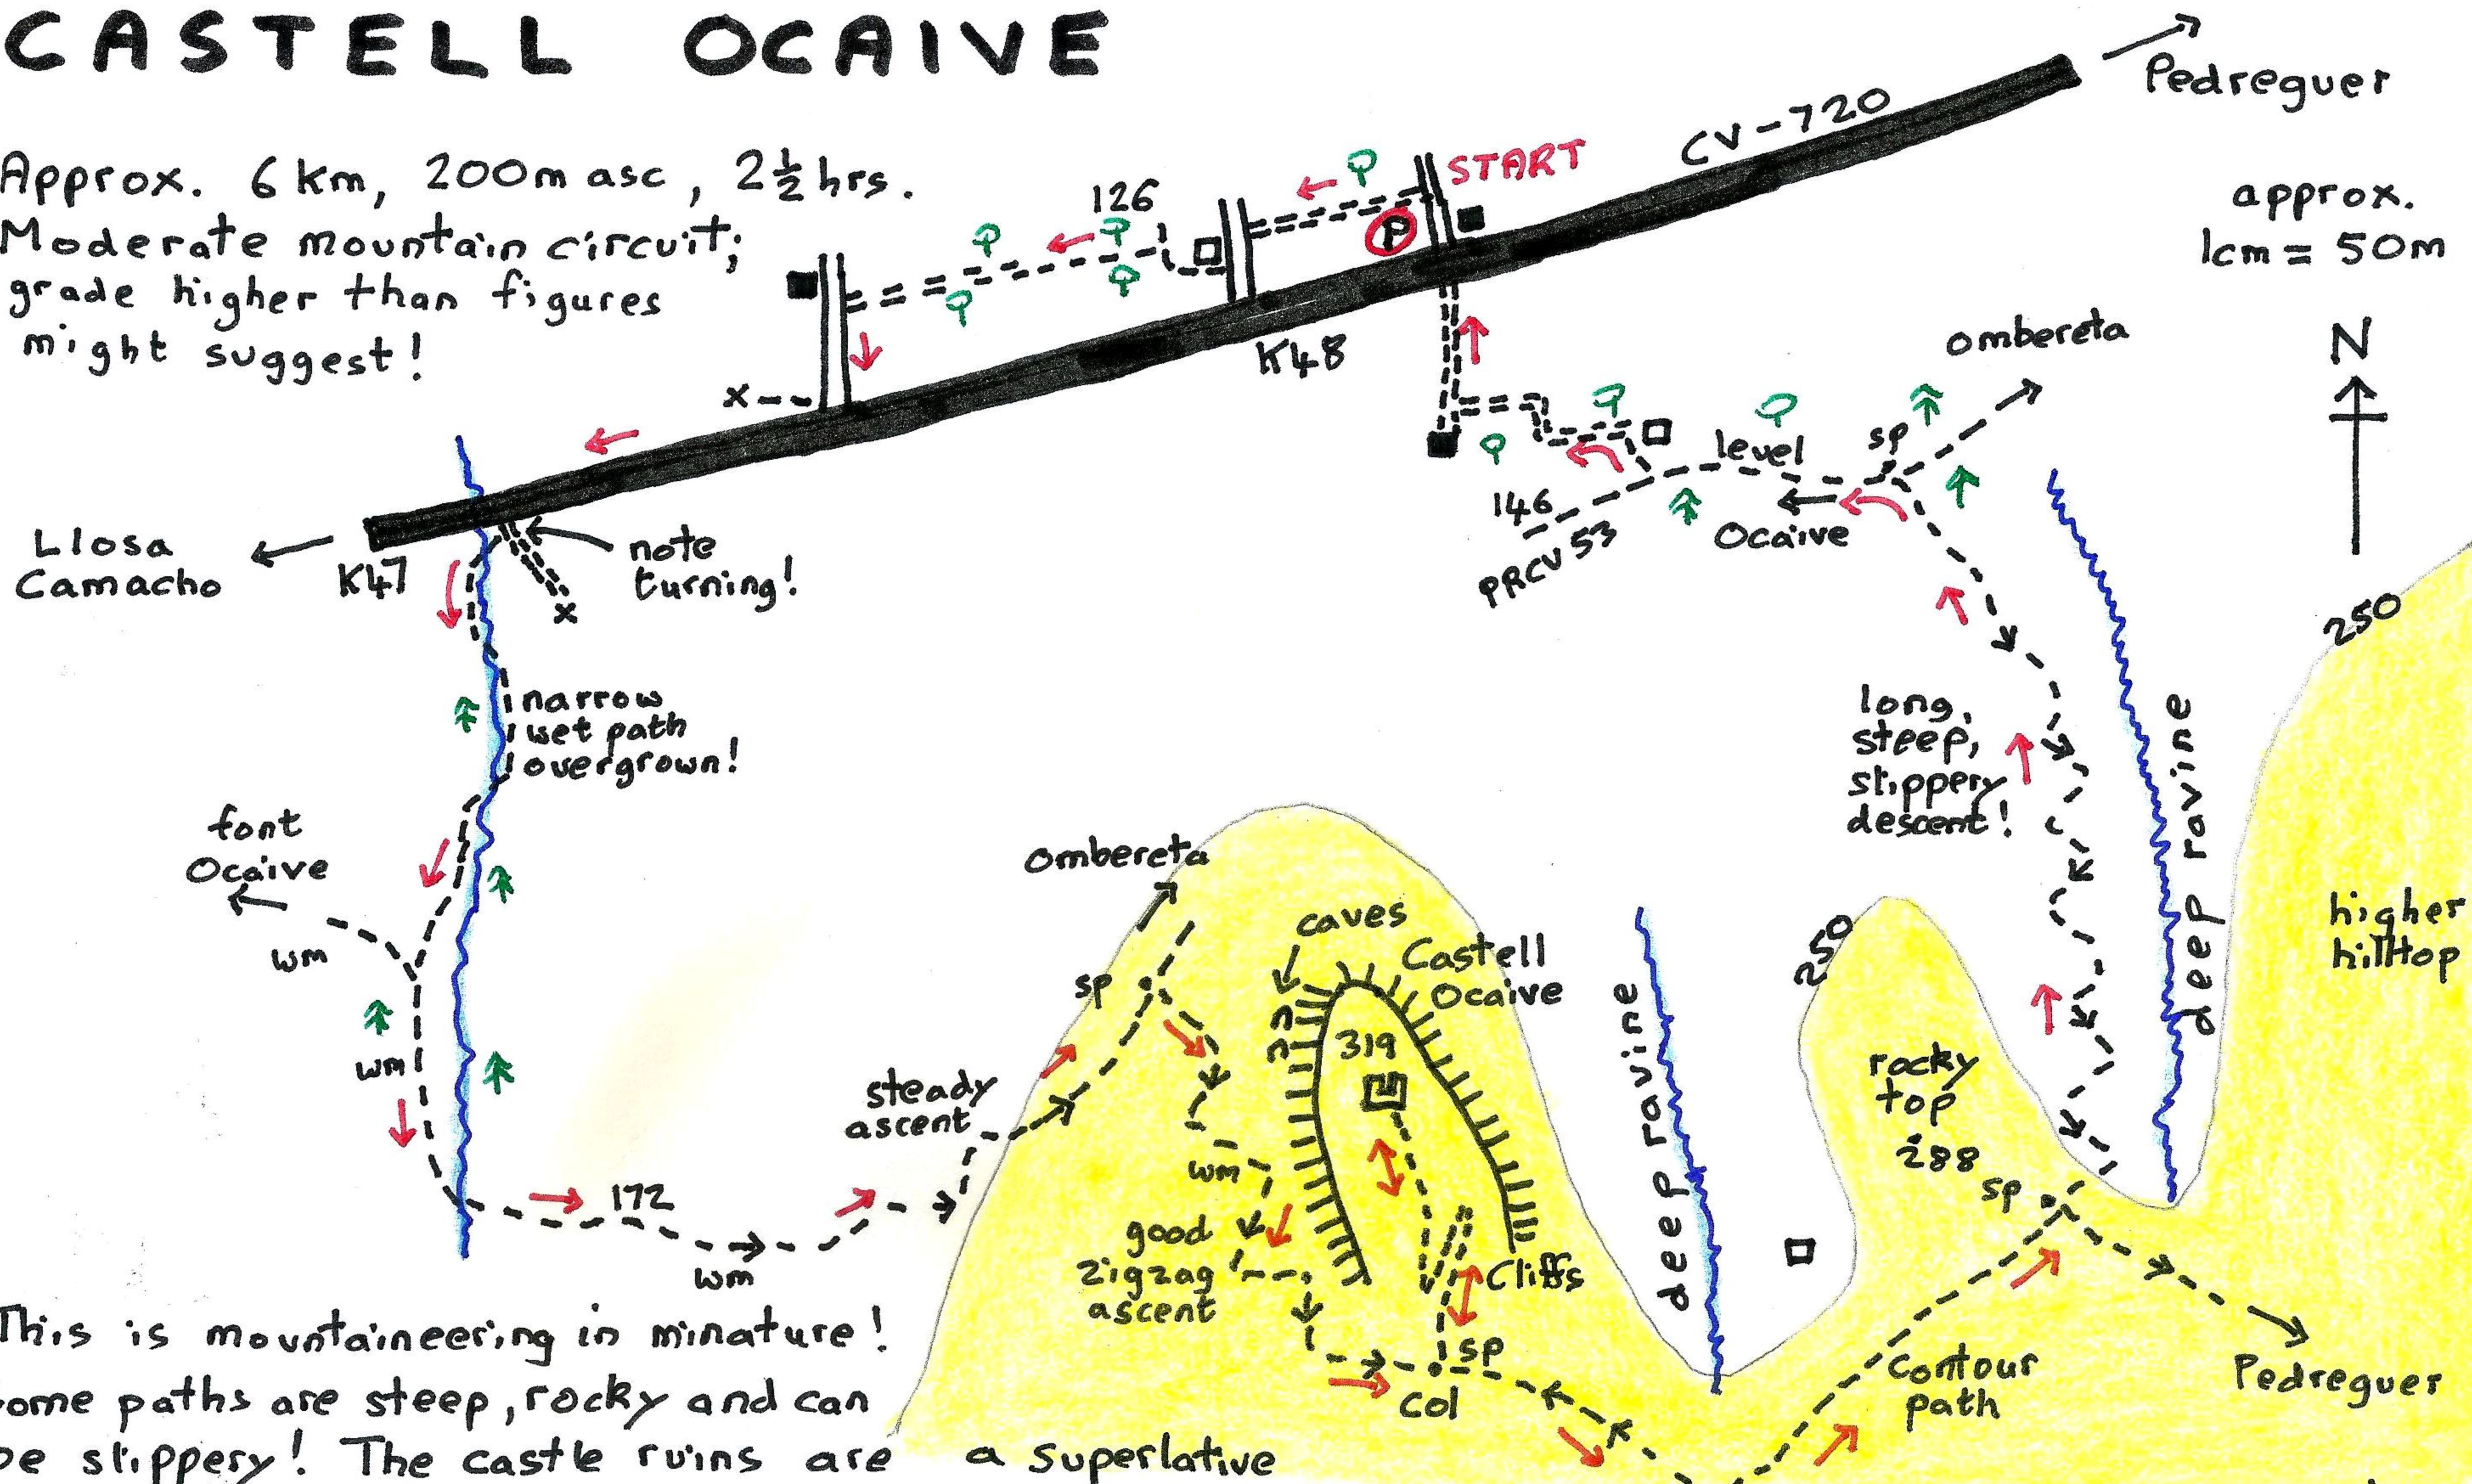

Though not short this circuit is all on good paths, tracks or quiet lanes. It undulates, but there are no steep ups or downs. Much of the walk is in woodland, giving shade, but there are mountain views too. The ermita de st. Sebastia is of interest and the font gel an ideal picnic spot.

CASTELL OCAIVE

Approx. 6 km, 200m asc, 2½ hrs.
Moderate mountain circuit;
grade higher than figures
might suggest!

approx.
1cm = 50m

This is mountaineering in miniature!
Some paths are steep, rocky and can
be slippery! The castle ruins are a superlative
viewpoint, reached by a narrow, winding path to
the top of a pinnacle of rock.

WARNING! Avoid when wet, or in winter
when North facing rocks are slippery!
