

XIRLES STROLLS - Polop

The basic circuit on the Cami de Campules takes about an hour, just right for a pre-lunch stroll before visiting the restaurant Moli, by the shady river, which has a swimming pool in which to cool off; perfect for a summer's day!

If you have boots and more time there is an extensive network of trails to explore in the wooded upland beyond the water tower.

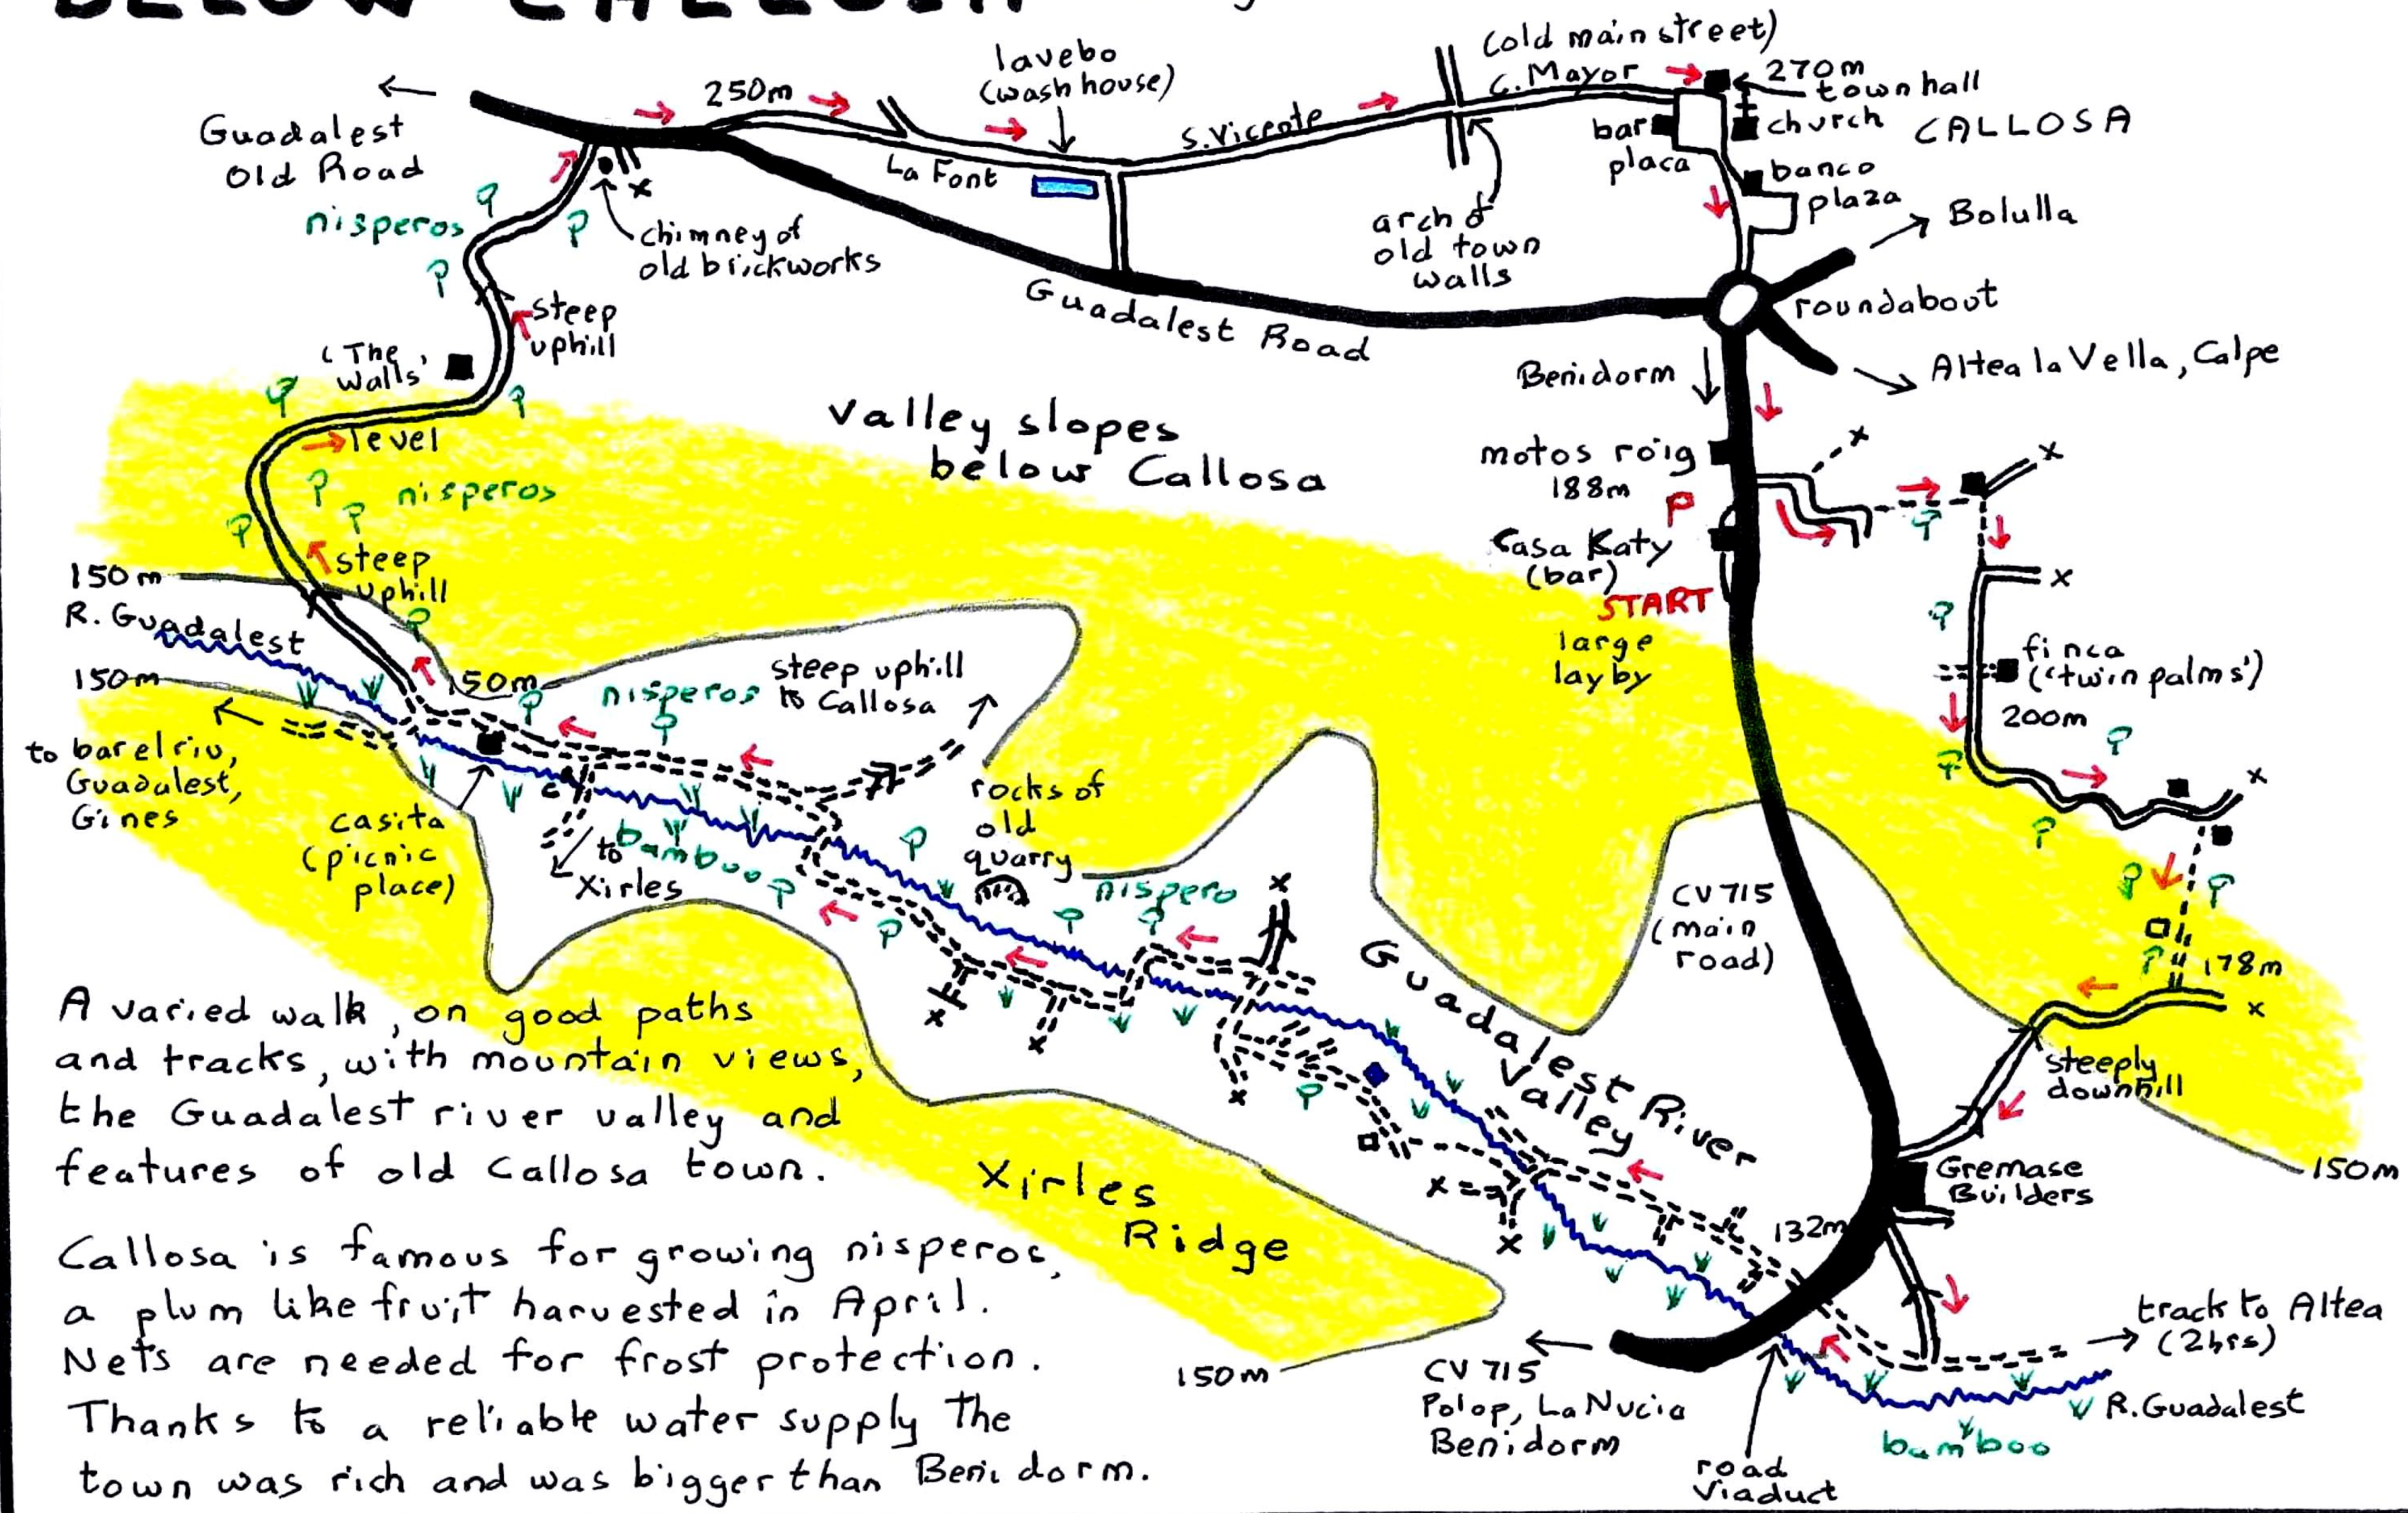

Drive to Polop, between La Nucia and Callosa, on the CV-715. Leave it at the (only) roundabout for the Xirles road.

2015 P. Parsons.

X2 ^ ^

BELOW CALLOSA

Easy moderate, about 6 km, 100m as, 2 1/2 hrs.

A varied walk, on good paths and tracks, with mountain views, the Guadalest river valley and features of old Callosa town.

Callosa is famous for growing nisperos, a plum like fruit harvested in April. Nets are needed for frost protection. Thanks to a reliable water supply the town was rich and was bigger than Benidorm.

X3 ^^^

ABOVE GINES

An undulating circuit in a quiet, little walked area, with pinewoods, almond groves and glimpses of Guadalest and the surrounding mountains.

approx.
8 km
250m ascent
3 hrs
Clockwise

Good paths and tracks, with only one steep section on the return, which can be avoided. easy/moderate circuit.

Scale approx. 1cm = 100m

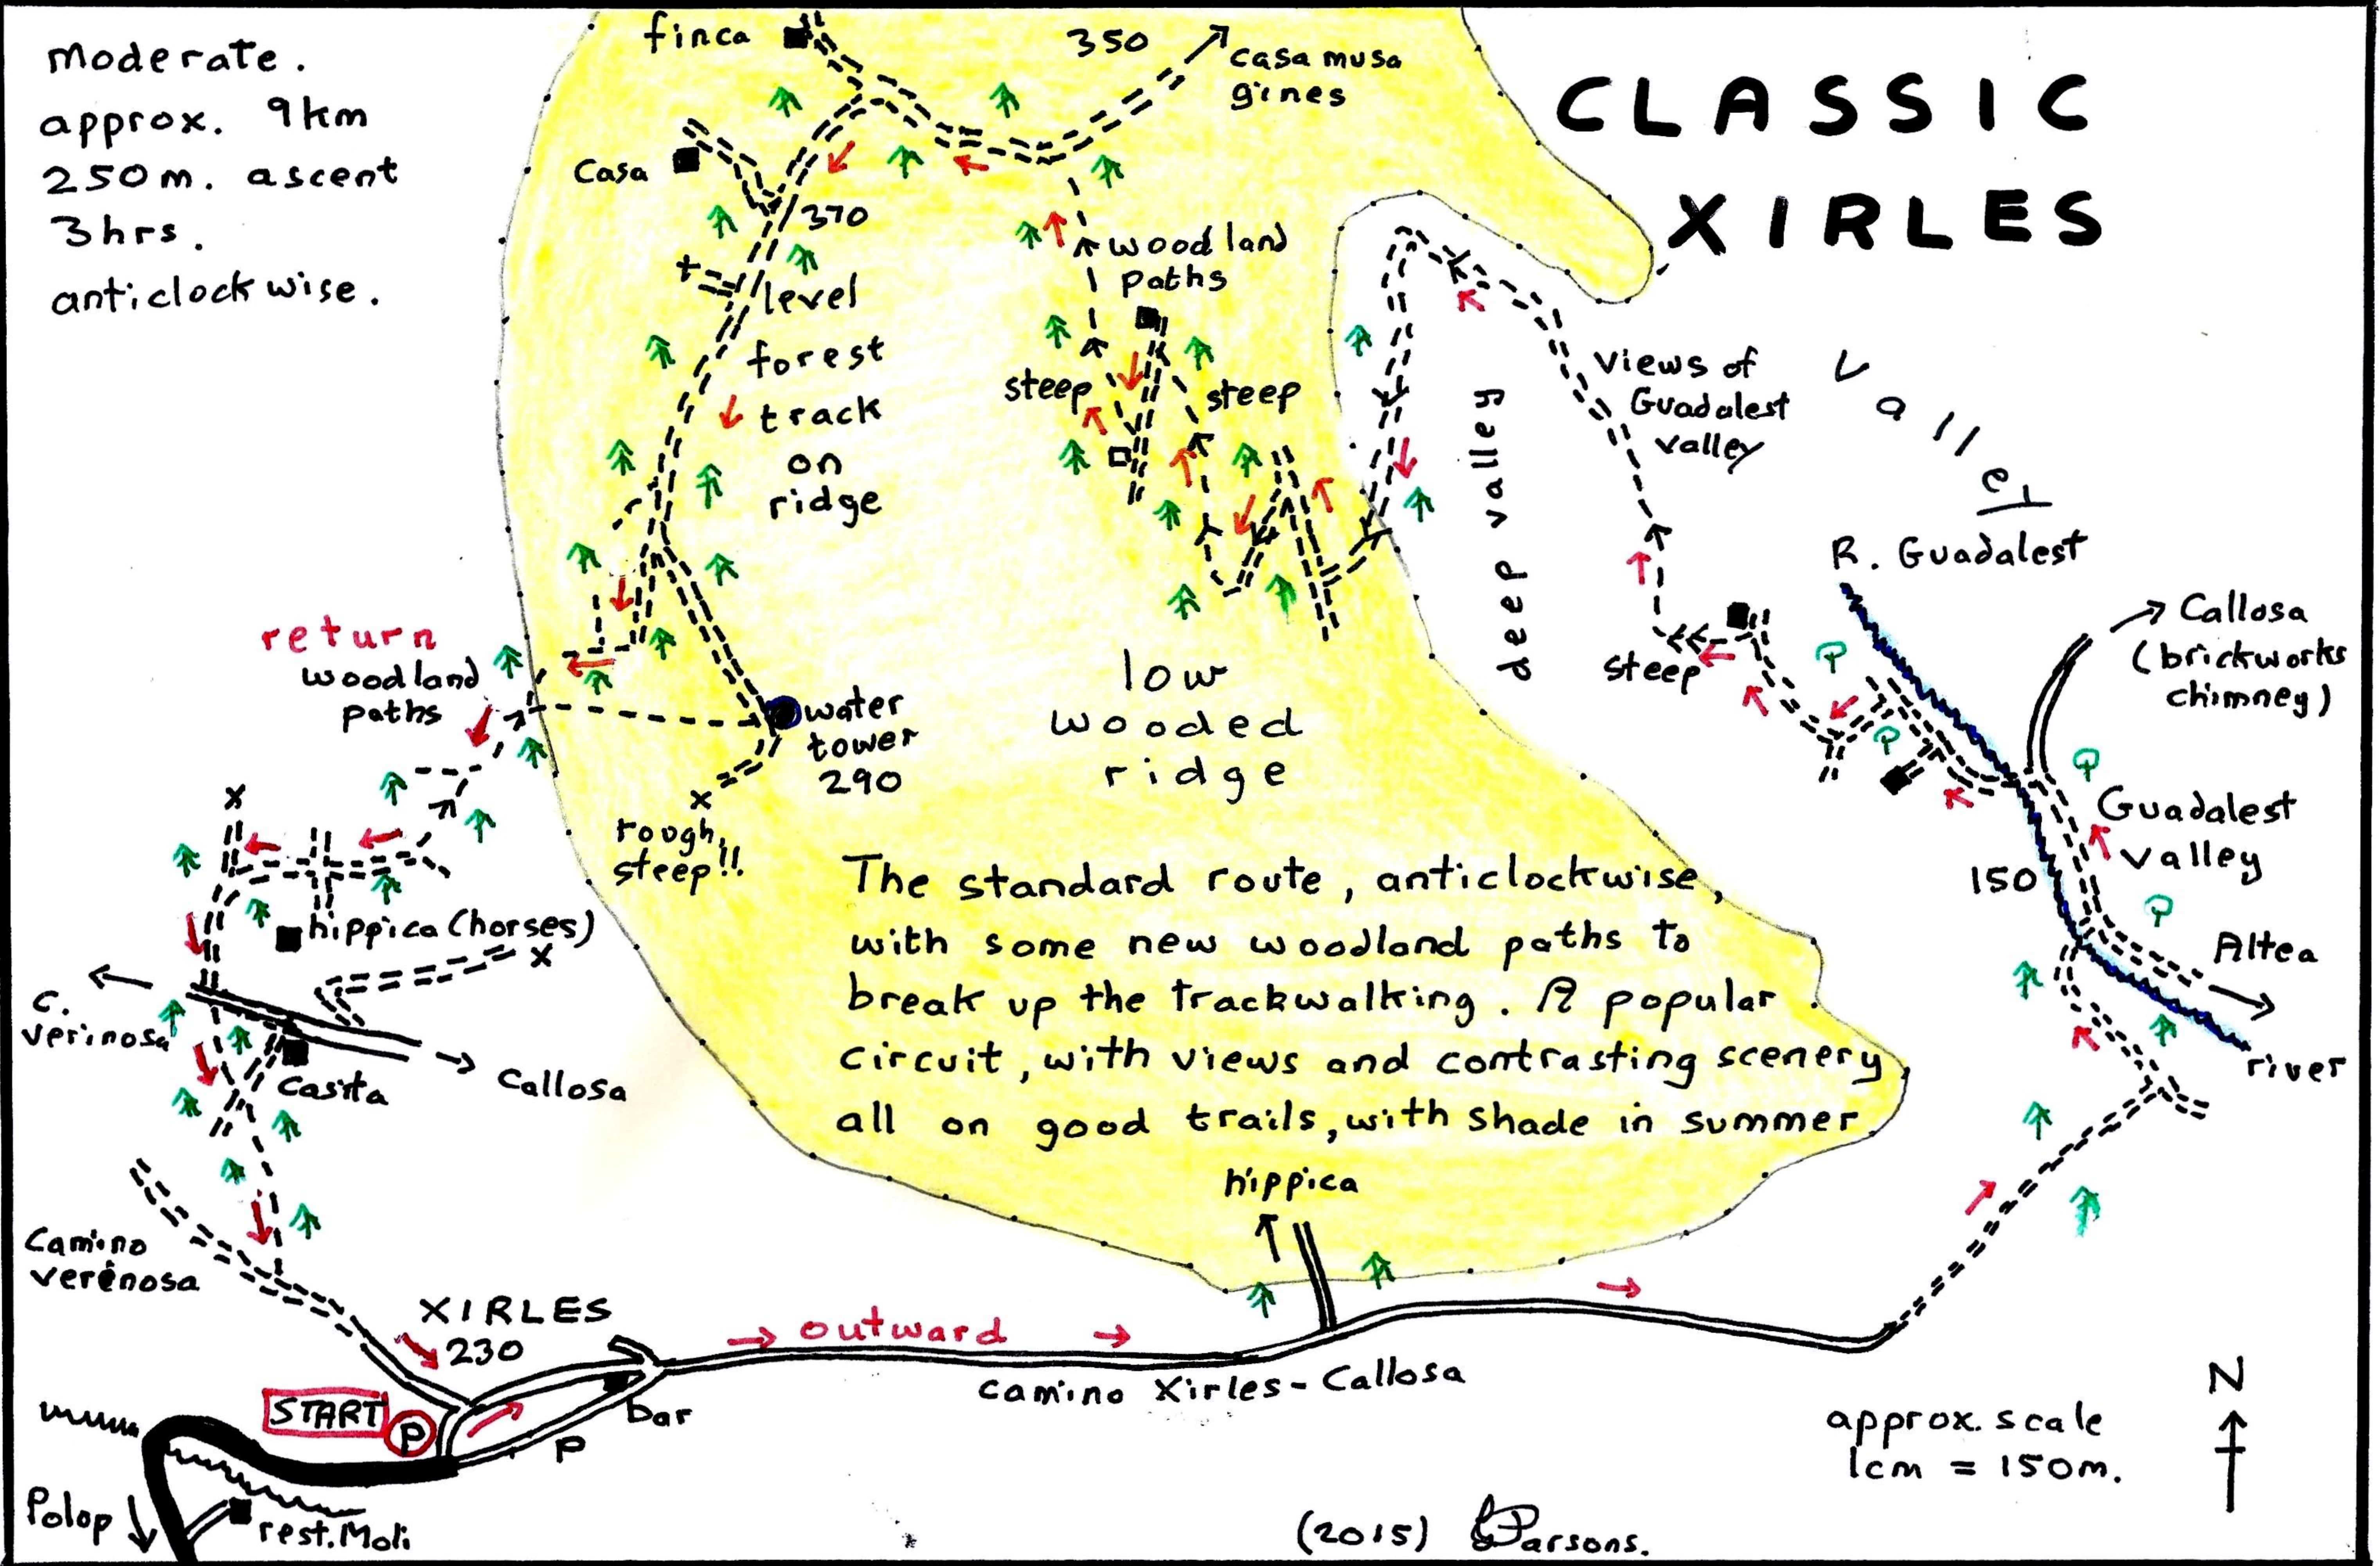

(2015)

G. Parsons.

X4 ^^^

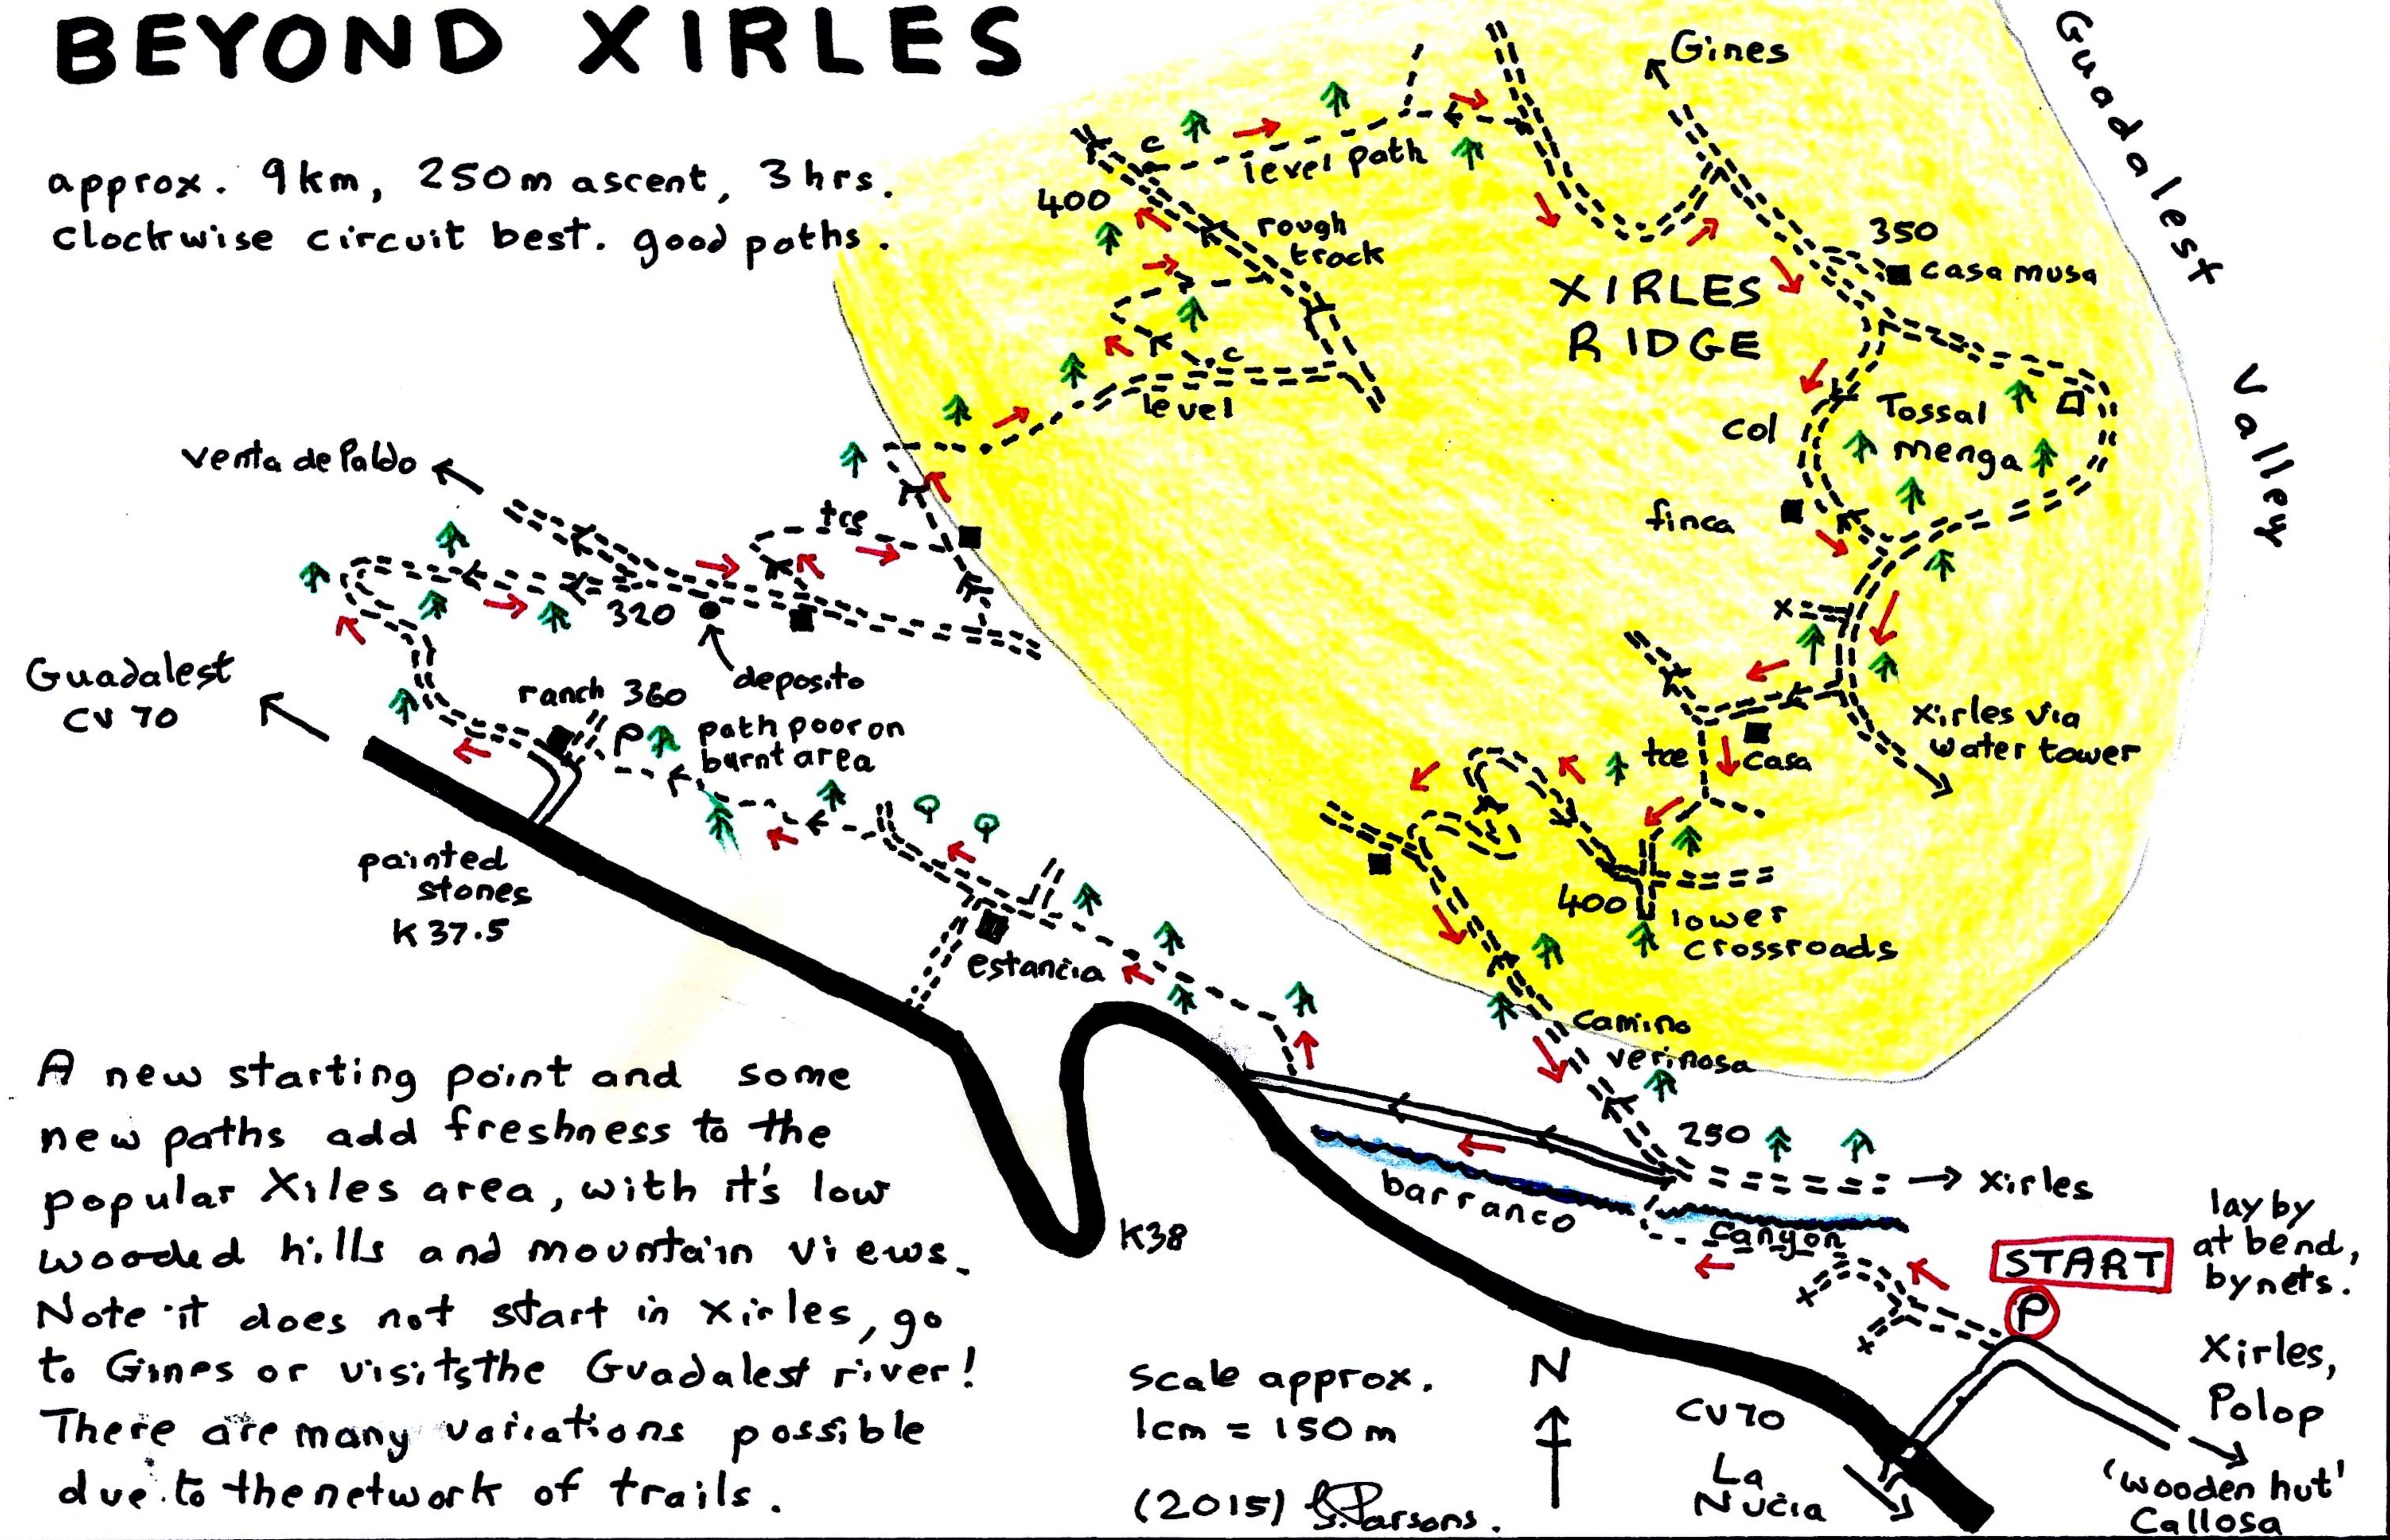

Moderate.
approx. 9km
250m. ascent
3hrs.
anticlockwise.

CLASSIC XIRLES

BEYOND XIRLES

approx. 9km, 250m ascent, 3 hrs.
Clockwise circuit best. good paths.

A new starting point and some new paths add freshness to the popular Xirles area, with its low wooded hills and mountain views. Note it does not start in Xirles, go to Gines or visit the Guadalest river! There are many variations possible due to the network of trails.

Scale approx.
1cm = 150m
